

We wish you a Blessed And Joyous New Year 2024.

As 2023 draws to an end, we set goals for ourselves in an attempt to improve. Self-improvement is perfectly acceptable, but our spiritual lives are the most important areas of our lives that are constantly open to change. Why don't we make 2024 the year that we start praying again, as opposed to setting and then breaking New Year's resolutions?

Our lord Jesus spent a lot of time in prayer. He could not have carried out his ministry without prayer. "Very truly I say to you, the Son can do nothing by himself; he can only do what he sees his Father doing, for the Son likewise does whatever the Father does," declared Jesus. If we don't know

what the father wants for us, how can we ever expect to develop spiritually? So, start the prayer right now and take refuge in the lord who is waiting for you to give a new meaning to your life on this new year.

It is really satisfying to watch them happy and grin.

On Christmas and New Year, the churches are decorated with colourful lights and decorative items. Meanwhile, parents buy gifts and new clothes for their kids and celebrate the day with great enthusiasm, cheer and joy. But what about kids who don't have parents? Now who will take care of them? Who will bring gifts for them? Who will buy new clothes for them? We know the hearts

of the children. If someone has something, the other child's eyes automatically turn into it.

So we decided to ask God who is the greatest giver of all, with no mortal limitations, no imperfect motivations, and with no questionable intentions. His giving is selfless, merciful, and expressive of love in ways that the recipients would normally never consider. Whatever the love we received, the same love was poured out in the midst of orphans who lead their lives with lack of food, care and love. As you know, our foundation is in a great need to provide shelter for orphan and vulnerable children and we are looking for sons and daughters of God who will take part in doing the lord's will.
