

True Joy Global Foundation wishes you a great beginning of this “Year 2023” in Christ!

Every year on Jan 1st we wish one another by saying “Happy New Year”. Does the new year really bring happiness in our lives? If so, then why is 2020 & 2021 full of agony? Why did it frighten us? And why did it push us towards poignancy? The saddest thing which I noticed was most of the Christians are falling under the name of New Year’s Eve celebrations, and they are slowly sliding down. For those who really follow God’s will through his spirit will not

engage himself/herself in the earthly things which today's world is following.

Do we forget what the Apostle Paul quoted in the Romans 12:2? Aren't we raised with Christ to set our minds on things that are above? (Colossians 3:1-2) My intention is to not condemn the one who is busy in celebrations, but request to know that there is a celebration waiting for us to celebrate with our lord Jesus in heaven. So, my dear brothers and sisters in Christ, let us be one in spirit and fulfil his will. Remember that, each of us is going to save at least one soul for God's kingdom this year 2023. Are we ready?

Day: Thursday

The warmth of God's love abounds in the elderly homeless.

God is good all the time, he does not show favouritism, and he doesn't stick to a particular race, colour, creed and religion. There are some oblivious people who strongly debate for decades with biased statements by quoting that Jesus Christ only belongs to a particular religion. We met the same mindset people who do not even respond to the elderly homeless people's needs who are living hard plight in

front of Saibaba temple without having a blanket to cover themselves in this winter.

A tumult took place and strongly condemned us to stop distributing the blankets. But they failed to do so because God's will must be fulfilled at any point, and no one can distract it. We told the group of people that we are not here to convert the people into one religion to another, but we are here to share God's love, which touched our hearts with everlasting Joy.

Actually, we went to share the blankets with only the homeless elderly people by telling them about the love and sacrifice of Jesus, but luckily, other people also heard the gospel.

Day: Monday

True Joy Global Foundation rescued five children from farm work in “Colony for Physically Challenged Bapatla”

Innocent souls are crushing under the feet of fate, and they are seeking help to get out of the situation where they are in. But some of them fortunately escape and some end up with a gloomy life. The five children in the pictures

also had a similar life who were fighting a lot to come into light.

Each one has his background and all are orphans who are badly in need of care and protection. We discussed with the landlord and told him that recruiting children for any work is a punishable offence. Later, we conducted a counselling session for children and came to hear about all their needs. One child from the group asked us that he wants to go to school, and it is his dream. He is the third one in the photo from left and his name is Pandu.

They are not looking for toys, video games, cycles, Ipads etc: But these sweet souls are looking for at least basic needs like food, clothing, shelter, education, and health care. You can see kids in the picture who don't even

have sandals to wear. Just imagine, what if a thorn or sharp object pierce their soft foot while working in farmland?

We thank God for leading us through these children, and we believe that God's light brought joy, hope, and peace to their hearts. Let us pray together that these children will one day bring many souls for God's kingdom.

Below we are sharing their names, so please remember them in your prayers too.

Babu, Ajay, Pandu, Brahmaiah and Raju. (From left to right)

Day: Saturday

Laid a good foundation in the midst of youth.

A good foundation turns a soul onto a good path, and that path leads to identifying what is right and what is wrong. True Joy Global Foundation is dedicated to laying a spiritual foundation which leads not only that person to salvation, but others too through them. We visited a village called “Vedullapalli” to share the truth with youth.

These young men are school dropouts who left school and do some odd jobs for the support of their families. They don't have a permanent job, and they don't have monthly salaries to pay the bills. Their lifestyle is different, like any other person who works hard to purchase some groceries for the rotation of their families. What if these people deny carrying the family burden on their shoulders? Leading a life without proper resources is too difficult and for them, it is really challenging. Not only in this particular village, but in entire rural India, we can see these kinds of heart-wrenching scenes.

We enquired about their condition and interacted with each one by encouraging them to follow the one and only provider who feeds the whole creation without skipping. And as children of God, it is also our responsibility to

feed this kind of people who are really in need with the resources God has given us.

Date: 17-01-2023

Day: Tuesday

Young minds get enlightened after the installation of scripture.

There are many unnecessary apps which drain the battery of mobile phones. Likewise, there are many unnecessary things which drain the brain of humans. Today's young minds have many things to do, like to get admission into well reputed institutions, to get good grades, to get a good salary, to get a good life partner, to build a good house, and to buy a good car and

to maintain a good bank balance. But what about righteousness?

To sow the seed of righteousness, True Joy Global Foundation gathered the youth who are residing in the area called “Pothuraju Kothapalem” Bapatla. The youth which you see in the pictures completely belong to Hindu religion, but their hearts do not stick to the particular religious beliefs. They have a desire to know the truth and that is the reason they spent their valuable time with us.

We felt delighted to see the young educated minds who are open to facts but not to fiction. God used our organization as a tool to shape the minds of truth seekers and hope they'll accept the lord Jesus Christ as their lord and saviour. Through our foundation, we request all

the believers to pray for the young people to know the God who sent his only son to save the world.

Date: 20-01-2023

Day: Friday

Joy blossoms in the hearts of youth after listening that they were bought at a price.

The world is chasing for joy and attracting others to fall into the trap. But the one who wants to find True Joy will surely get it through Jesus Christ. To make this known to young men, we visited an area called “Vidya Nagar” in Bapatla. And proclaimed that the joy that Jesus brought to the earth is incomparable with any other joy or feeling of happiness that can be experienced in life.

The young men which you see in the pictures are weavers who are trained to weave baskets, and they have profound knowledge of making them. They are not only good weavers, but good listeners too. With great attention, they heard all the things which we are trying to convey. While we were about to end the meeting, a young man asked us how can we get joy from God?

For this question, we answered by telling him, what if a person bears the punishment for trespasses which you committed? And what if he saves you and takes your punishment on him? It is not as easy as we discuss, to perform this one needs an unconditional love and that love is only found in Jesus. That's why he came into the world to save you and all the mankind

from their sins and gives us a gift of salvation and brought closer to God, he not only brought closer, but he prepared a place for us to live with God forever in his eternal kingdom. Isn't this the joy which we received from God?

He realized and said that this is the true Joy, which true Joy global foundation revealed to me today. After listening to his statement, we were happy that one soul was brought closer to God through our organization.

Date: 25-01-2023

Day: Wednesday

God's word feeds hungry souls in Satyanarayana puram!

True Joy Global Foundation not only feeds the hungry people but also feeds the hungry souls. We observed that today's Christianity is spiritually famished and our soul needs to be fed. If we were not intentional about healthy ways to feed our soul with the Word of God, we might find ourselves spiritually starving. If this is the case of believers who believed in Jesus

years ago, then what about the situation of unbelievers?

The four young men which you see in the pictures are residents of Satyanarayana puram in Bapatla and their roots are strongly rooted in God but befuddled to choose the one and only God because Hinduism has many Gods and Goddesses, and it is really a tough task to choose one. Like a bolt from the blue, our organization has cleared all the doubts and eradicated the confusion.

God's word played a vital role in the midst of youth, and we strongly believe that it is the supreme authority for all of humanity. Whether recognized as such or not, the fact remains that God has given mankind absolute truth and that same truth was revealed to the truth.

Date: 27-01-2023

Day: Friday

The love of God reached into the coldest of hearts and brought warmth and new life to the homeless people.

Our God is a wonderful God who knows the situations and pains which humans are going through. We are delighted to be in his service and doing all the things with the love which our lord Jesus has installed in us. We went at night to find homeless people who were sleeping on the footpaths and roads without having blankets to cover themselves. God led through

the path where his people were and luckily found 2 people who were badly in need of blankets.

The young man which you see here in the picture was an orphan who has been living a hard life for the past 27 years. He said that his name was “Sudhakar” and he shared all the pasts with us. When he was 11 years old, he lost his mother due to jaundice and his father engaged in an illegal relationship with another woman. And neglected the boy by saying that go and find work for you because I’m leaving the place and going somewhere to start a new life. That’s the day he was abandoned and became alone. No one took care of him, no one sent him to school, and no one gave him food when he was hungry.

The other old man which you see In the picture was a physically disabled person who could see the world with only a single eye. We asked his name, but he is saying different names, and we asked him about his family and past, but we failed to get the answers from his end.

Date: 30-01-2023

Day: Monday

True Joy Global Foundation introduced the character of Jesus and his lifestyle to children.

Every Christian must recall the character of Jesus and his lifestyle every day because he taught us practically by showing himself as a role model. He also calls us to care for children and not send them away as insignificant.

Children are valuable to Him! In many cultures around the world, children are often abused, neglected and discarded.

We are the humble servants of Christ, dedicated to following in his footsteps and bringing out the children from darkness to light with the resources God has provided us. The children which you see here are the residents of S. G Colony in Bapatla. Seasonal migration has separated these kids from their parents, and they are in great need of spiritual care.

We told them that Jesus and his everlasting love is with them, and that's why he sent us to take care of your needs. We comforted them by giving assurance that true Joy global foundation and its team are with them and took them into our arms and given them proper nourishment.
