Day: Monday

Two child rag pickers were adopted by True Joy Global Foundation.

Somaiah and his sister Nagaveni were living along with their uncle Prasad Rao, who works hard from morning to late night as a rickshaw puller to feed his family. With a kind heart, he also took an extra burden on his shoulders to take care of these two little children. Everything was going well until his wife entered. She has a bitter heart and always gets jealous after seeing the love & affection which her husband shows to these little children. Often times she quarrelled with him to send these kids out of the house, but he refused. From there on, she started to harass the kids physically and mentally.

Now these children have only two options in front of them,

1. To inform their uncle about the problems which they are facing.
2. To leave home permanently.

They have chosen the second one instead of the first one because they know that her barbaric behaviour will cause a lot of harm to them if they still stay there. So, they flew from there without having any destination, and finally, they ended up their lives in rubbish. There are also some other children like them who work in filthy environments, rummaging through hazardous waste with their bare hands and feet. They play in these dumping grounds strewn with syringes, scrap iron, rotting waste, solid and liquid household waste.

We are planning to bring all these kinds of children under one roof where they are treated with utmost love and care. We also request all the people to inform our organization to the below Mail ID, or

WhatsApp number, whenever they notice the vulnerable and street children. True Joy Global Foundation has volunteers in different locations, who will reach the place immediately and help the children to get out of the afflictions where they are in.

Day: Friday

An underprivileged family found refuge under God's wings.

We belong to God, and he has absolute authority over every human life, whether we acknowledge his rights or not. His supreme love endures forever, and that love is still waiting to receive us, but some people cannot understand it, and they hurt the lord by turning their backs on God. This family had also done the same by worshipping a serpent which they found in their hut a few years ago. Locals suggested them to be careful, but they haven't paid attention and continued their insanity by adding a tag that God came in a serpent form to bring out their family from poverty.

How absurd it is? Due to their carelessness, they lost a 3-year-old granddaughter after being bitten by the same snake. Because of their lack of knowledge, they lost a baby and still, they feel disgusted for the misdeed which they have done in the past. Now their souls were awakened and hearts are ready to seek the true God who created the whole world. Luckily, God guided our hearts to help this family, and we are delighted that he chose us to serve his people towards truth.

Day: Saturday

The right direction has shown to the right people to reach the right destination.

God will guide us in the right direction when we submit to him. Without submitting ourselves to God, how can we blame him by just saying, you have done this, you have done that? In front of others, we claim we want God's will – but then we rush off in all directions, frantically trying to decide what to do without ever pausing to ask God to guide us.

For the past 61 years, a couple, Lakshmi and sambasiva rao (from left to right) have been doing the same thing by following their will instead of

God's will. While we were telling them about God's qualities and his love towards humans, they interrupted and had a great debate with us. While telling them the truth, sambasiva rao mother Anjamma (fourth one from left) came towards us and said that. I believe salvation comes only from the lord Jesus, and he is entitled to save mankind through the approval of God. He came down to earth to cleanse us from all our sins.

Her son was literally in shock after listening to her statement. He asked her how she knew this? She smiled and replied like this, when you left me alone and flew away with your wife. Jesus is the only one who stood for me, who helped me in all my troubles, who blessed me abundantly and who softened your heart to come back . Isn't this enough to believe in his love?

We are delighted after seeing her faith which she has for our lord. When her son left in her old age,

she went through depression and health issues, but God helped her in every situation. While she was speaking to us, we saw joy in her words, and we really want this true joy in everyone's lives.

Day: Monday

Heard the hunger shouts of children.

In 2011 Somalia famine – 260000 people died, half of them were children. The whole world was stunned and said never again, but now the hunger crisis has gone global. Today, well over 50 million people are one step away from starvation. In some hunger hotspots, children are literally living under famine conditions. Girls and boys are not just starving, but are being starved to death.

Most of the time in our ministry work, we have seen poor hungry families, especially parents straining to feed their children despite dwindling resources. These little children also have the same

background, and they are greatly in need of food. We fed them not only with food but also with faith, hope, and trust in the lord Jesus who fed the great multitude.

We spent a long time with these kids by knowing their problems and needs. They only said one thing and that is nothing but to provide them food daily. These kinds of answers from these little children make us so emotional, and we can't control our tears. Immediately, we promised them that the food will be served at your door step and from here onwards, by God's grace you will get sufficient food. Our words make them feel happy, and we have seen true joy in their eyes. With a team, we can do more, so let us work together by recalling the words of our lord Jesus Christ, "For I was hungry, and you gave me something to eat." (Matthew 25:35).

Day: Thursday

God, the great comforter, comforted the despondent.

In everyone's lives, there are some predicament situations which push them towards agony. But God tells us he is our refuge and strength and our help in time of trouble. He is near to the broken-hearted and saves the crushed in spirit. Even if the whole world is against us, we do not need to be afraid because if he is with us, who can be against us?

The same words are repeated to a gloomy woman who has been tortured and abandoned by her husband for not giving him money to drink alcohol. She said that he was badly addicted to it, and he's been imprisoned for extortion several times. Her

family, village elders, and his children too requested him to change his vicious demeanour, but he won't. Although, she was very patient and working hard to meet the needs of the children. Yet, there is no change in him. She recalled the days when she and her children had hard times in hospital.

Their health and lives were disturbed, but still, they are waiting to see him back as a virtuous person. Mainly, her health condition was not good, and she couldn't be able to work as she worked earlier. Now her family is in great need of support for food, clothing, and education for her kids. As servants of the almighty, we will help as much as we can and request other godly people to help them with their great generosity.

Day: Tuesday

A woman turned from her spiritual disability and accepted Christ as lord and saviour.

There are two different types of people in the world, physically disabled and spiritually disabled. The physically disabled is the one who has health issues or physical defects. Spiritual disabled ones are those that have eyes, and they can see but do not have vision. These are the real disabled ones. They do not use their faith to please God, and that is why they can speak but are mute, they can hear, but are deaf, they can walk, but are disabled.

“Annapurna” also belongs to the above-mentioned category, and she faces great suffering in her life because of her physical disability. Every time there

should be one to take care of her, and she said that sometimes she got suicidal thoughts. She went into depression and got angry at God for giving this kind of pain in her life. But she failed to understand the will of God and his great purpose in her life.

We told her that for everything there is a great reason, and he has already prepared a place for us to be with him forever and ever. We also informed her that the pain and suffering which she was going through will be short.

Later, we gave her a kit which included a pair of clothes, fruit, water bottle, Blanket, Gospel tract, and New Testament Bible. She requested us to help with the medicines too which became a hectic task for her to afford. By God's grace, we helped her with the medicines as well and told her to stand firm on the word of God.

Day: Friday

True Joy Global Foundation Instilled moral values in children.

When we dive into the old golden days, the majority of the children were under the supervision of their grandparents, parents, and guardians. They used to take care of them, observe them and correct them when they were morally wrong. But what about the present generation?

For this question, we have an answer, and it is simple, spending a good quality of time with a child can have a great impact on their lives. So, frequently we reach out to the foundling, waif, and orphan children who have been abandoned by

society. As a part of our ministry, we found these deprived children on the outskirts of a village called “Pinniboyina vari palem”.

These little children are alone and don't have anyone to take care of them. They are tied to duties and long working hours are assigned to them in aquaculture. Sometimes, while they were working at night shifts, venomous insects bit them because of walking on the barefoot. To whom they'll share the pain? No-one. It's really heart-wrenching.

Every time, in our prayers, we ask God to help us to construct an orphan home for the children who are facing the problems every day in their lives. We are eagerly waiting for his blessings and the guidance and help of Holy Spirit.

Date: 28-03-2023

Day: Tuesday

Clothes were distributed to distressed women.

Helping others is a natural way to share God's love. No matter how busy we are or how little we have to give, a true heart to help distress is greatly appreciated by God, and he wants dedicated servants in his service to help the poor as much as they can. With that dedication, we reached out to the people who are living a hard life below the poverty line. They don't have enough food to eat and enough resources to feed their children, yet they are leading their lives with hope.

The only reason for their pain was that they are Dalits. Dalits are untouchables, and they face a lot of discrimination from the upper caste people. Still,

in this 21st century, we can see many cases which are attached to it. Even officers and politicians are the victims of this caste discrimination in our country. If this is the case, then just imagine the condition of a woman who doesn't have any background or support? All these women in the picture are facing the same problem and trying hard to find a solution to this, but they haven't.

We told them that for every situation there is a solution and that solution is none other than Jesus Christ who clearly said "Come to me, all you who are weary and burdened, and I will give you rest. (Matthew 11:28). As we know, our words don't work out, but if the words are from God for sure, it'll change a person's life. Now, the same thing happened with this group.
