Day: Tuesday

Muslim brother's heart was touched by the spirit of truth.

“Alhamdulillah” (praise be to God). He has a plan and purpose to save mankind. In Ephesians 1:11, we can see that all things are done according to God's plan and decision, and God chose us to be his people in union with Christ because of his purpose, based on what he had decided from the very beginning.

We are deeply indebted to almighty for sending us to help a person who is greatly in need of salvation. We met Yousuf at his tyre shop, where he has been running it for the past 22 years. He is alone, and he doesn't have any family to look after him. At the age of 5, he lost his parents in the 1977 Andhra Pradesh cyclone. More than 10,000 people lost their lives, and it created grief for many families. Everything changed in the blink of an eye. But God held the hands of the orphaned children through his servants, who were serving the people with utmost love and care. They provided them with food, clothes, and shelter. Yousuf is also one of them who got benefited by God's love.

At that moment, he realized that God would really hear the cries of people because he had seen some children and their parents who were

praying and seeking help from God with tearful eyes. And finally, their prayers were answered, and sorrow turned into joy. By observing all this, he came to the conclusion that whatever the pain comes in his life, he'll overcome it through God. We believe that his strong faith and love for God have opened his eyes and brought him to a holy man who fulfilled the will of God by shedding his blood. Let us join our hands together and praise God for giving him salvation through his son, Jesus Christ.

Day: Friday

Madhav Rao was abandoned by the family, but not by God.

Hmm, it is really heart-wrenching to see the elderly people on the streets who got a return gift for the sacrifices which they have done for the family's well-being. They dedicated their whole life to giving the best, but in return, they'll get the worst experiences. Madhav Rao also falls under the same category and was abandoned by his kids. While we were speaking with him, he suddenly became emotional and tears rolled down.

He recalled the memories which he had with his family and wept aloud. He said that I worked as a mason worker in the scorching sun by carrying bricks on my head. At the age of 13, I entered this job, since then, until now, I couldn't find a rest in my life. I thought that I'd enjoy myself with my family, and I'll play with my grandchildren, but my fate kicked out. When I lost my wife, I was the only one who took care of the kids and gave them everything, but now I became a burden to them and planned to get rid of me. Finally, the desires of their hearts were fulfilled.

We tried to console him, but he couldn't get out of the pain because he loved his two sons wholeheartedly and the way they treated him was creating a great grief to his soul. No one can understand his pain, but only God can, and that's why he sent us to help him. We asked him, how can we help him? He said that I'm not looking for anything, but just food and shelter is enough for

me. I'm a diabetic patient, and often I get the feeling of fainting due to lack of improper food and medications. I know that I couldn't afford medicine, but at least help me with the food.

So, we first gave him the food to eat, and told him that tomorrow in early hours we will come with a doctor to check your blood sugar levels, and we will help you with daily food and medicines too. We are also planning to give you shelter, but right now, we don't have resources to provide it immediately. We are praying for the construction of the building. Definitely, God will provide us, so be strong God is with you, and have hope & faith only in him.

Day: Wednesday

The deprived found a new life in Christ.

God brings miraculous results out of ordinary work when we trust in his ways rather than our ways. True Joy Global Foundation started without having any financial resources and support, but God has seen the heart which we have for the deprived people and helping us with his spirit to reach out as much as we can. In our journey, we found many people who are going through hard situations in their lives. Every life is precious in God's sight, and he knows a better way to bring forth the lost sheep back to the shepherd.

“Venkateswarlu” belongs to the region of Rayalaseema and worked in different odd jobs to feed his mother. He was with her until she passed away. After that, his brothers came to him and there was a great clash between them in the division of agricultural land. To grab the land illegally, they are finding alternative ways to get it. After knowing the plot of his brothers, Venkateswarlu filed a complaint in the police station and told all the things, but he didn’t get justice. Instead of getting justice, he was beaten up badly in front of policemen by his brothers.

After keenly observing the things, he came to the conclusion that I’m single, and I couldn’t fight with the power of money and my brothers. So, it’s better to leave the home without expecting much from these evil people. Immediately, he took the bag and left home

and finally ended up in keerthivaripalem (a small village in Chirala mandal prakasam district). Still, at this age, he is working in the fields without depending on anyone.

Sporadically, he couldn't go to work because of his health issues. We came to know about his situation and rushed to help him.

But God had already cleared the path for us to reach him and prepared his heart to accept the truth. We are happy that he accepted lord Jesus Christ as his saviour and said that he found a new life in Christ. Let us praise God for bringing a deprived closer to his eternal love.

Date: 19-04-2023

Day: Friday

Disabled old man empowered by God's love.

No matter what situations we are going through, when God's love empowers us, we will get peace in our hearts, which leads us to better understand the love which he has for humans. To proclaim the word of God and his love for the crushed spirits, we visited the town called "ponnur" with our volunteers.

There we met a dumb person who has a physical disability near the Anjaneya swamy temple. It is hard for the one who has a physical disability to do

things, so at least he can take help from others by calling them whenever they are unable to do, but here in this case, even he can't call others. We came to notice that he was badly in need of help and we tried to help him with food and clothing. How sad it is to see these kinds of innocent people who are crying every day in their hard situations.

We asked him what needs he was looking for. By giving some signs, he explained all his needs, but one of our volunteer kiran said, brother, I couldn't able to understand what he was asking for. I only understood that he was seeking food and clothing, but what about the rest? When we are appointed to do some work for God's kingdom, there is no rule that we can understand all the things.

Even great prophets in the bible sometimes couldn't be able to understand clearly what God really wants to do. But the holy spirit led them towards work and gave them the strength to

understand the things which they feel hard. He will surely help us and guide our hearts to understand the problems of his people. Finally, Kiran got an answer and we too praised God once again for choosing us to be his servants.

Day: Saturday

Pujari (a hindu temple priest) chose to worship the creator instead of creation.

Hallelujah! We are serving a marvelous, powerful God. He is the God of all things, blessed be his name ever and forever. We are completely speechless with the miraculous things which God has done in the life of a priest. Since his childhood, he has been serving the idols in the temples by doing puja (a worship ritual). Now imagine how strong he is in his faith and creed?

It is really tough for a person like us to bring him out of his presumptions, principles, and ideologies. Really, it's impossible and we cannot change him instantly. But what if God softens his heart and gives attentive ears to hear the truth? Absolutely the Holy Spirit works, we can see in Acts 2:41, where 3000 souls were awakened, saved and protected after listening to Peter's preachings.

The same spirit worked here and touched the heart of the Priest. After hearing the gospel immediately, tears started rolling down from his eyes and he recalled all his past in a single shot. He wept aloud by saying that God has a great love for me, only that love brought me closer to his salvation. He also said that what if I leave this earth without knowing the true God who shed his blood for my sake? With tears of joy, he joined his hands and praised God.

Day: Tuesday

True Joy Global Foundation comforted the weary soul.

Gone are the days when people come and comfort you when you are going through afflictions. Right now we are living in evil days where people bother less about others. So we have to be strong and we need to depend on the God who can quickly respond to us. Gopal Krishna was also going through the trials and tribulations after the demise of his wife. In 2007, they returned back from his father-in-law's house and lived together by taking care of their sheep farming.

He said that they were living happily, but the only problem was that his wife was going through depression and he asked her many times what happened, but she refused to say. Before committing suicide, she asked Ammavaru (goddess) to bless her. He didn't take it seriously because he thought that it was just a normal conversation. After having breakfast, he left home with his sheep and in the evening when he returned home, he saw his wife's dead body hanging to the ceiling.

Still, he was in shock and he wasn't able to come out of that tragedy. In this depression, he sold the sheep and returned to his father-in-law's house. But he couldn't be able to live there. His wife's memories brought him back to the same house where she hanged herself. He is completely isolated and he is not talking with

the villagers either. They tried to convince him but he didn't.

Finally, through prayer, we reached his house and saw the great suffering which he was going through. First we made him eat food and later we sent one of our volunteers to get the groceries kit. We thank God for letting us know about the situation of this man.

Day: Monday

Teacher, greatly influenced by the teachings of a good teacher (Jesus).

There is no age limit for learning. If our hearts are ready, we can learn at any time. When we look into the world, we often see heinous crimes, natural disasters, plagues, and political dramas where people's mindsets are corrupted with corruption and wicked thoughts. In this unethical society, how can you be an ethical person? Just by understanding the meaning and purpose of life. Without understanding these two, you cannot know anything.

To reveal this to a teacher, we introduced a good teacher who dedicated his life on the cross to save mankind. Jesus was the greatest human teacher to ever live because his knowledge was beyond what any human could possibly attain. Sometimes, we may have disturbances, distractions and deviations, but he won't. Because he dedicated his life in a disciplined manner to God.

A great debate took place while we were sharing the Gospel with him. Luckily, the holy spirit saved us from there and opened the hearts of the teacher by revealing to him the truth.
