Day: Monday

An oldman shed tears of joy

Joyful tears turned on like a faucet from an elderly homeless person after coming to know that a loving God is ready to forgive all the sins which he committed in his life. He clearly said that I won't claim myself as righteous, but I believe that I'm a wicked, ruthless and dishonest man who rebelled against God, the great creator. While he is quoting these lines, we have seen regret in his eyes, when a person's heart is unable to contain the love of God, His provision or His blessings, as unfiltered emotion erupts from a grateful heart.

With a grateful heart, he said that I would like to thank God for giving me this great salvation. Earlier in my life, I didn't know what is the right path to reach God. But now, I'm delighted to see the unconditional love of God which brought me from darkness to light. I thought that there was no one to help me and gone through depression. There are days when I think that suicide is better than leading a life in distress. Several times, I searched for food in the garbage bin but I didn't find anything. There are many elderly homeless people like me who suffer from starvation and every day the death graph rises.

What he quoted was absolutely right, there is no one to take care of the elderly homeless who are seeking food on the streets and no one cares for them. True Joy Global Foundation's vision is to provide shelter to all the elderly homeless people and we are continuously remembering this point in our prayers. We also requested him to pray for people like him who were abandoned by their families and told him to share the joy with others which he found in Christ alone.

Day: Friday

“True Joy Global Foundation” took an initiative step to stop child hunger.

According to the report of world counts, a child dies from hunger every 10 seconds
<https://www.theworldcounts.com/challenges/people-and-poverty/hunger-and-obesity/how-many-people-die-from-hunger-each-year>. And it is really unfortunate to see the innocent souls who are greatly in need of food. The saddest thing was that death rates are highly increasing every day. To put an end to this child hunger, we decided to implement the action plan for a better future. We know that it is highly impossible to eradicate child hunger around the globe, but we can eradicate it in our town and nearby villages. Before taking the step, we prayed for the guidance and help of the Holy Spirit, which could lead us towards God’s will and his perfect plan.

Through prayers, we can achieve the toughest tasks easily. With one heart and one mind, we decided to provide food to the hungry children in every area of our town. The children which you are seeing in this picture completely belong to a group below the poverty line, they don't have safe drinking water, and it leads them towards health issues. What should they do now? Without healthy food and without clean water, how can they live happily?

These kids are badly in need of nutritious food and their parents can't afford it because they are completely swamped with poverty and agony. So we decided to take care of these kids and the other foundling, illegitimate and orphan children by providing them with food and clothing.

Day: Tuesday

With God, all things are possible.

God is all righteous, powerful and all things are possible with him. There are some people who simply say that no, God doesn't exist and he cannot help. But that's not correct. He is a loving God who always loves, protects and cares for humans. He not only loves us but all the creations which he created within the seven days. His strength, power, and attributes are immutable.

Once again, God showers his blessings and grace upon an old woman who is severely suffering from bronchitis. She said that I've been searching for help who could take care of me, but no one comes forth. I just lost hope in humanity and started looking up for help from God. He is a great helper and comforter who always performs miracles in an unpredictable way.

What she said was absolutely correct. He performs great miracles for his people who have faith, trust and hope in him. We strongly believe that her faith only brought her Closer to God's children who are sowing seeds of Gospel in people's hearts. We have seen her anguish which she

is going through and immediately comforted her with the word of God because during physical struggles, we know that God's abiding presence is always with us. His Word contains many reminders of His love for us. So we read the Isaiah chapter 38 verses 16-17 "Lord, by such things people live, and in every one of them my spirit finds life; You have restored me to health and let me live. Indeed, it was for my own well-being that I had such intense bitterness; but your love has delivered me from the Pit of destruction, for you have thrown all my sins behind your back".

She felt happy to hear the word of God and requested us to provide a Bible, immediately we gave her the bible and told her to stay strong. We also promised her that we would help with the medicines and treatment as well.

Day: Friday

A new journey began in Christ

Life is a journey which we need to continue with patience and perseverance. Sometimes it's interesting, and sometimes it's dull, but we need to travel until the destination point is reached. Many people set goals and start their journey with hope to achieve earthly things. Finally, their journey ends with the five-letter word "death". For those who wake up to the truth of the Gospel of Jesus Christ, they are fortunate.

"Manikya Rao" quickly reacted to our statement and shared a verse from the Bhagavad Gita. Just as the man in this body passes through the various stages of boyhood, youth, and old age, like so, he passes into another body after death. The wise know it and are not deluded. (Chapter 2 verse 13).

By quoting this verse, he said that death is just only a short break for the body which we used for 60-70 years. After that, we will take another new body. It's an eternal process. Immediately, we just gave him an example. Will the child accept sitting in the same class after clearing the examination? What if we say, just sit in the same standard, but every year we will give you a new question paper? It is really absurd, there is no fun doing the same task, for everything there is a result and there is an end.

God gave life and requested us to follow the manual guide which helps to operate this flesh in a meaningful way. If we carefully read the word of God and apply it in our daily lives, for sure he will give reward for the works which we have done and we will live forever with God. Revelation chapter 21 verses 3-4 crystal clearly says “Then I heard a loud voice from the throne: Look, God’s dwelling is with humanity, and he will live with them. They will be his people, and God himself will be with them and will be their God. He will wipe away every tear from their eyes. Death will be no more; grief, crying, and pain will be no more, because the previous things have passed away”.

After solving all his queries, he said that I've been living outside the temple for many years and no one bothered about me and no one came to me to just ask whether I had food to eat or not. But don't know from where you people came from. I'm conveying my heartfelt thanks for your love and also for being so patient with me.

We are happy that finally, he accepted the truth and said that I've wasted time travelling without having any destination. Anyhow, thank you so much for helping me to know the truth and now I'm ready to start my new journey with my lord and savior Jesus Christ.

Day: Monday

Disability is not a barrier to touch the feet of the redeemer.

God loves us more than we can imagine, and there are no barriers to reaching him. Some people blame God for the disability which they have, but Rajesh, he neither blamed God nor his parents for his poor condition. In the Bible, disability is not seen as caused by God, even though God is sovereign over it. However, although disability in itself is not caused by God, disabled people are created, valued and loved by him. What a comfort to know that he protects and cares for us when we are in physical and mental illness. No matter what is happening, he never leaves his children.

Once again, God proved that we are not alone by introducing the life of Rajesh, who had a disability by birth. His disability never became a hurdle for him because his mother is everything to him. He thought that he could do anything with the support of a mother, but at the age of 16, he lost his mother. From there until now, he is still seeking her love. He said that I never cried in my life and also never disappointed in my physical disability because every day my mother showers her love, care, and blessings upon me by saying that my son you are not disabled and never feels that you are a burden to me. Trust me, I'm there for you and I can make you walk through my legs. I'll take you out, and I'll show you the beauty of nature. I'll work hard to feed you. I'll protect you with my two arms, and I'll make you every day a new day by teaching you the main aspects of life.

She makes me feel like I'm perfectly fit, and she builds confidence in my mind with her mellifluous tone. Now who will take care of me? Can anyone replace the place of my mother in my heart? We understood the Pain and agony which he was going through and comforted him by the word of God and told him to accept the love of Christ, which is better than worldly love.

Day: Wednesday

Decided to provide monthly support for the elderly homeless woman.

We people decide everything in our lives without knowing what is good and what is bad. This old woman also blindly trusted her children and gave them everything that she had. She thought, “What will I do with this money, land, houses, and gold?” In this old age, I just need food and good rest. Anyhow, my family is there to take care of me. But this is the wrong decision which she had made. Simply they abandoned her. With no place to go, she went to the police station and filed a complaint on her children for leaving her without giving any portion which helps to sustain her life. But police delayed the case. Instead of doing justice to the poor old woman in return, they asked her to give bribe to continue the case further without any manipulations.

She thought that it was better to end her life, but God moved her heart in a different way and she fled to Tenali, which is approximately 15 Kms away from her village. With no memory of what happened, she found herself on a train to Vijayawada. After spending 3 days with no food at the Vijayawada railway station, a good samaritan fed her a meal. With no hope of what to do, she decided to beg on the station for her living. Twice she survived the corona virus and now she is in the last stage of her life.

Luckily, we found her in the scorching sun where she was walking unconsciously barefoot. Immediately we approached her and quenched her thirst with cold water. Later, we provided her a shelter and promised her that our organization would serve her with medicines and nutritious food. We request all the believers to pray for her salvation and good health.

Date: 27-06-2023

Day: Thursday

Widow finally found a shelter after living a long time on the footpaths.

Aruna Kumari from Repalle spent the last fourteen years of widowhood without family. She lost her husband and children in the year 2009 October 7 when the entire town was affected by the floods. This fifty – four-year-old widow survives only by the grace of God. Yes! She doesn't have a family, and she doesn't have any safe and secure place to find shelter. Even her own relatives abandoned and refused to give her shelter. Just imagine how a woman can stay on the streets? Is it the right place for her? Absolutely not because there are a lot of crimes which are taking part, particularly on women in India and this year there is a high rate of crime compared to the previous year. Last year, nearly 31,000 complaints of crimes committed against women were received by the National Commission for Women (NCW).

Although, no government has taken action to prevent these crimes and also they haven't come up with a program to provide safety for women who are living on footpaths. We know that when everyone leaves us alone in our afflictions, God will stand for us and shower his mercy upon us. She received God's mercy and now she is not alone. We have a God who cares for us and who loves to hear our burdens and deepest concerns. We have the Bible, a book that is both living and active and is full of people who remained strong and courageous even when they did seem alone.

Without any delay, we took her to the house which was completely built with palm leaves by one of our volunteers a few months ago to provide a temporary shelter for the ones who are especially elderly homeless women who need great care and peace in this old age. There is one more old woman who is staying in the same house where we are providing her daily with food and medicine. But now she has found a partner where both can help each other and pray together. We provided them with clothing, food, cooking gas, blankets and monthly groceries.
