Day: Tuesday

Let's Pray for "Ramani Amma"

It's deplorable to look into the life of Ramani Amma who deserves care at this old age and she didn't take help from anyone while she is fighting daily for her life. Sometimes we put off asking for help because we think it will be a burden on others. We believe, "I don't want to bring someone else down with my suffering. It's unfair of me to ask Someone else to bear this burden."

This manner of Thinking disregards how God formed the body of His believers. God wants us to support one another and that's why he brought us together with his everlasting Love. At any cost, we decided to give the best to Ramani Amma, who doesn't have a family. When we inquired more about her family background, she said one thing in a single statement.

“When I was Affected by a paralytic stroke, my children literally Left me on the road. At that very moment, I asked God to take my life, but instead of taking my life, he healed me miraculously and guided my Path to a new place. For many years forward, I've been living in the same place and I never requested anyone to help me because when your own children don't love you, then how can strangers love you?”

What she said was absolutely right and we told her that our loving God's grace and unconditional love

is sufficient for us. We gave her the monthly groceries and told her that we would provide her medicine support too.

Day: Friday

Proclaiming the Great Deeds of God.

The entire creation proclaims in jubilation over God's marvelous works, except for humans. We praise God only when good things happen, and we basically forget his miraculous deeds which he does to protect us every day from Satan's snares. Those who still won't believe in the great deeds of God, just need to look at Udaya, an 88-year-old homeless woman who survived on the streets for 23 years. She has gone through serious health problems and also attacked twice with COVID. We all know that people who take good medication and nutrition also bowed down to death from this virus, but this homeless woman doesn't have anything, not even a proper saree to cover her body.

She survived with one meal a day, sometimes not even that. Now tell me isn't this God's miracle? While we were sharing about the Lord Jesus, she said that "I wanted to praise his name for being with me, Protecting me, and caring for me with his everlasting love". So we request everybody to seek God's love in your lives and also believe that in everything, God's might is great, overwhelming, and righteous. Nothing can match His incredible power and grandeur. Never lose sight of how magnificent God's creations are. He made them from absolutely nothing. He brought everything we see into existence for his and our pleasure.

Day: Wednesday

An End to the Pain's Chain.

When we flee from God during difficult times, all we have is our own constrained capacity to endure What we are going through. Contrarily, God asks us to approach him so that we may encounter his calm, healing, and closeness. Scripture leads us in this direction, but many people try to escape from the chains of their pain.

Yellamandaiah is a name which is widely used in the "ST communities". These tribes are the poorest people. He also belongs to the same community and worked as a tea estate worker in Tamilnadu along with his family for many years. He

encountered some of the evil acts which were done by his wife. She was in an illegal relationship with another man. They both had a serious discussion on this matter and finally Yellamandaiah wasn't able to live there because of the mental stress which he was facing. Instead of forgiving her, he abandoned her and left their home in 1997. He made his own choices in his life and was deeply affected by the problems with his choices. Finally, he settled in the village called Mutlur where we found him while we were preaching the gospel.

Day: Monday

Confide in the Almighty.

Being optimistic in the benevolence of the Almighty God in difficult circumstances is the main Component of trust in its emotional aspect. Most People don't know how to rely on the creator of the Universe completely, and they do question him many times when they face hardships. Lakshmi is also one who experienced the same in her life.

Periodically, she doubted that God really exists. These doubts arise not only in her mind but in everyone's minds, when we see things which aren't going accordingly to our plans. She became

financially weak after losing her husband. The burden of her children's welfare and their maintenance was now on her shoulders and she would have to fulfil it at any cost.

We told her that for all her problems, the solution is trusting in God alone. If we do so, it will bring many benefits to our spiritual life. Some of the major benefits of trusting in the Almighty God is gaining faith for salvation, release from anxiety and trouble, victory Over falsehood for the righteous, direction from deception into the brightness of certainty, harmony and joy among other things.

Day: Thursday

Introduced the Great Guru to Durga Rao.

We're all famished. Yes, in our area we experience physical hunger every day, but this physical hunger should alert us to a more profound need: a yearning for God. Every one of us has a place where we ache for God, hunger for his presence, and thirst For his fulfilment. No matter what religion we are From, it's our responsibility to search for the truth And the one true God who created the heavens and Earth. Durga Rao was a great devotee of Saibaba and Believed that he was the guru who showed us the Path to live a quality of spiritual life.

He really doesn't know the accurate meaning of "Guru", so we decided to introduce him to the great Guru who is the light of the world. While we are Preaching him the gospel, evil created a great Disturbance in the midst of us. Durgarao's cousin Tried to send us away from his home, but we know That God's will cannot be thwarted by any barriers. Joyfully, we shared the gospel with him and he Believed in it. Praise God he was saved at that very moment!

Date: 29-09-2023

Day: Friday

God is Gracious to Broken People.

It is incredible that God actually works through the Broken. We can directly attest to the fact that Christ Helps the hurting by using the broken. Even the most experienced Christians are still flawed on this side of eternity as we advance through life. Yes! The Bible is filled with instances of God working through flawed individuals to further His goal of bringing Hope to all people.

“Kumari” is also one of them who God wants to choose as His daughter of faith. She lost her husband and son on July 14, 2022.

Her husband and son together went into the sea for Fishing, but due to heavy rainfall, their boat capsized and both together lost their lives. From then onwards, she is living her life in great distress.

She somehow recovered from that pain and started To work as a maid in local homes. Unfortunately, in the past two months onwards she has been suffering with an arthritis problem and hasn't been able to work properly. We came to know that she needs ongoing support from our volunteers. We visited her home, prayed for her and helped her in the name of Jesus.
